ABOUT THE EVENT

With a population of more than 85 million and a median age of 26, Vietnam offers a young, educated workforce, and a destination market for goods and services. Over the last decade, its GDP growth has averaged 7.5% annually, making Vietnam the second fastest growing free-market economy in the world. We are honored to be joined by H.E. Le Cong Phung, Ambassador of the Socialist Republic of Vietnam to the U.S. and panels of experts who will discuss how to invest and conduct business in Vietnam. Topics will include a discussion of the legal, regulatory and investment environment, case studies from manufacturers already active in this marketplace, as well as a description of opportunities in physical and IT infrastructure, real estate and equities.

Building Bridges to Vietnam

Panel Discussions*

Panel Discussion #1: Bilateral Trade Agreement

The US-Vietnam Bilateral trade agreement signed in 2001 marked a new period of rapid economic development between our two nations. Learn about the details of this agreement and the results so far. What can be expected in the future? In addition, we will touch on macro-economic topics such as currency and trade, and identify growth industries. Presenters: Don Straszheim (Roth Capital), Ian Coxhead (UW-Madison, Dept. of Applied Economics), Beng Yeap (Wisconsin Department of Commerce), Thoan V. Ngo (Vietnam Embassy—Commercial Office).

Panel Discussion #2: Legal/Accounting Issues & Regulations

What does it take to establish a business in Vietnam? What are the regulations for various industries? How do companies resolve disputes? How developed is Vietnam's accounting system? How transparent is it? What are some "red tape" issues that must be overcome? This panel discussion will provide answers to these questions and include a description of the legal steps needed to establish and run a business in Vietnam as well as key accounting and regulatory issues. Presenters: Andrew Odell (Duane Morris), Hung M. Nguyen (Vietnam Trade Center—NY), Grant Thornton, Deloitte.

Panel Discussion #3: Equity/Real-Estate Investing

As a condition of its 2007 acceptance into the WTO, Vietnam has committed to privatizing eligible state-owned-enterprises (SOE's) and to opening almost all industries to foreign firms by 2010. This is a key catalyst to continued growth in the equity and real-estate markets. In this presentation, you will learn about public and private investment opportunities in equities and real estate. Presenters: Eric Berg (Lexington Langha), Henry Fahman (Providential Holdings), Rodney Hathaway (Hathaway-Nguyen Capital Management).

Panel Discussion #4: Experience of U.S. Companies in Vietnam

There is no better way to learn about doing business in Vietnam than from those companies that are already there. This panel discussion offers executives an exclusive opportunity to learn about the market, challenges, and successes experienced by U.S. companies in Vietnam currently. This knowledge will help businesses and investors more effectively navigate the unique issues in Vietnam's dynamic market, and successfully cope with potential obstacles. Presenters: Scott Summerville (Rockwell Automation), Viet Tran (Vietnam Embassy, Trade Office), John Powalisz (Sentry Equipment Corp.).

Panel Discussion#5: Physical and IT Infrastructure

The continued build-out of the physical and IT Infrastructure in Vietnam will be vital to its success on the world market. To support and attract the large amounts of foreign direct investment that have already been made over the last decade, the government has invested heavily in the country's physical and IT Infrastructure. This panel discussion will give an overview of the current infrastructure landscape in Vietnam as well as outline future needs and opportunities. Presenters: Thomas Johnson (DotVN), Hung Manh Tran (Cavico), Michael Le (Somotsoft).
